Prior to fiscal year 2012-13, unfunded liability was based on the actuarial value of assets. As a result of the PERS Board's adoption of modifications to smoothing and amortization policies, beginning in fiscal year 2012-13 and continuing thereafter, the unfunded liability will be based on the market value of assets. See "-PERS Actuarial assumptions and Policies."

Because of the issuance of pension obligation bonds by the City in 2004 and 2005, accounting rules require that the city amortize the prepayment associated with the lump sum contribution to PERS from the bond proceeds over the life of the debt. As a result, the percentage of the APC contributed is less than 100% with the remainder being accounted for by the amortization of the net pension asset. In each year shown in the table, the City has contributed 100% of the amount required by PERS as required by state law.
